Vaudeville acts needed to hold an audience's attention, and so many comedy acts chose this particularly movement-oriented form of comedy. Historically, slapstick has been accompanied by sound effects.

The Role of Movement & Dance in Theatre | Study.com

Stanislavski's system is a systematic approach to training actors that the Russian theatre practitioner Konstantin Stanislavski developed in the first half of the twentieth century. His system cultivates what he calls the "art of experiencing" (with which he contrasts the "art of representation"). It mobilises the actor's conscious thought and will in order to activate other, less-controllable ...

In the theatre the actors are real people who are present and creating an experience with us at that very moment. They see and hear us and are sensitive to our response. They know how we feel about the play by how we watch and listen. An invisible bond is formed between actors and a good audience, and it enables the actors to do their best for you.
