Amaya skipped a question in the dichotomous key that was not easy to answer. The way the insect was collected may have caused damage to its exoskeleton and wings. Several other thorough and up-to-date dichotomous keys also failed to identify the insect. The normal diet of many insects in the forest has been seriously altered by a recent drought.

The classic example is when I lose my keys. You would think that by now (knowing that I am the kind of person who often loses my keys) I would have a huge, bright red key chain with a blinking strobe light that plays a ring tone every time I lose them.

The Brains Behind 'Where's Waldo?' | Science Project

Gender identity haunts every aspect of our lives, dictating the outcomes of our conversations, our workplaces, our relationships – even our bath products. Before most infants are named, they are assigned a sex based on the appearance of their external genitalia by a third party. These decisions are dolled out in a typically binary fashion, with no expectations for ambiguity.

Between the (Gender) Lines: the Science of Transgender ...

Do you know a future Gamecock thinking about #GoingGarnet? ☐☐ ••• Tag them to make sure they apply by Oct. 15 and have a completed application file by Nov. 2 to get an answer from @uofscadmissions by mid-December. ☐☐ // #UofSC
