Financial economics is the branch of economics characterized by a "concentration on monetary activities", in which "money of one type or another is likely to appear on both sides of a trade". Its concern is thus the interrelation of financial variables, such as prices, interest rates and shares, as opposed to those concerning the real economy.It has two main areas of focus: asset pricing and ...

After years of negotiations over complex arrangements deployed by big companies, G7 finance ministers meeting in Britain on Friday are expected to declare their support for a global accord to address billions of dollars in lost tax revenue. This push is backed by some large investors, often state-run, who are scrutinising tax bills as well as profits.

An annuity is a series of payments made at equal intervals. Examples of annuities are regular deposits to a savings account, monthly home mortgage payments, monthly insurance payments and pension payments. Annuities can be classified by the frequency of payment dates. The payments (deposits) may be made weekly, monthly, quarterly, yearly, or at any other regular interval of time.
