GoPro does not prioritize Windows / Android users. They have yet to provide a GoPro Max editing application for Windows even after 8 months since their launch date. Don't buy GoPro products if you use Windows / Android, or expect to have to also subscribe monthly for access to Adobe Premier, which is the only way to edit the footage on Windows.

How to get a Go Pro App for Windows 10? - GoPro Support Hub
You can use a GoPro HERO6 and HERO5 Black as a webcam or for real-time capture to a computer. But it's not quite as simple as just plugging your camera in with a USB cable. Here's a guide on how to do it. You can use a GoPro HERO6 and HERO5 Black as a webcam or for real-time capture to a computer.

How to Use a GoPro HERO6 & HERO5 Black as a Webcam
Aside from that, you can use any of the usual GoPro mounts or other photography tripods (with the correct adapter). Things Worth Knowing. Menus & Settings? One of the inconveniences of using the HDMI-out signal from your GoPro is that it blacks out the camera's back screen. That means you can't access the menus.

How to Use a GoPro HERO7 Black as a Webcam
How to Use GoPro as Dash Cam. Before we get started, I need to get something off my chest. I don't think using GoPro as a dash cam is the best idea. Sure, for a single trip (or in a pinch) it can work well. But I recommend using tech for the reason it was created. GoPro cameras work best outside and underwater – they are for adventures.
