The transmission failure typically costs an average of \$2,330 to fix and occurs at 104,000 miles. The most common solution is to replace the transmission or replace the whole transmission. For a Honda Civic, it costs approximately \$514-\$765 for labor costs, and a total of \$1203-\$1922 to rebuild the transmission. Transmission Slipping

Honda Transmission Problems: What You Should Know!

Your Civic does not require you spend an arm and a leg for maintenance, but a blown transmission has a hefty price tag. When you start noticing slipping and an inability to switch gears smoothly, it's time for Civic automatic transmission repair. At AutoZone, you can easily find parts that are made specifically for your Civic.

Honda Civic Automatic Transmission - AutoZone.com

Transmission failure in those model years is a widespread issue with the Honda Accord, Civic and Odyssey. The 2003 Honda Accord, 2001 Honda Civic and 2002 Honda Odyssey appear to be the worst years for transmission failure. Some quick stats: More than half of the reported transmission problems happen under 90,000 miles. 1 in 5 problems happen before the odometer hits 70,000 miles. Owners report an average repair cost of \$2,291.

Automatic Transmission Failure | Honda Problems

The Honda CVT transmission problems are quite difficult and expensive to solve. So, it's better to follow a few maintenance tips at the initial stage. Regular checking at your parking spot for transmission leaks can work precisely to mark the issues.

What Are Common Honda CVT Transmission Problems - CAR FROM ...

Automatic/Semi-automatic transmissions. Most of Honda's automatic transmissions are unusual in that they do not use planetary gears like nearly all other makers, however, Honda has recently introduced (2017) an all-new, in-house designed 10-speed automatic that uses planetary gears. Honda's older transmissions such as the Hondamatic semi-automatic transmission and its successors use ...
