### The Archaeology Of Crete An

The Aegean culture known as Minoan is the Bronze Age civilization that flourished on the island of Crete during the second and third millennia BC. The city of Knossos was one of its main cities—and it contained its largest palace after the shattering earthquake that marks the beginning of the New Palace period in Greek archaeology, ca. 1700 BC.

### The Palace of Minos at Knossos in Ancient Crete

archaeology, also spelled archeology, the scientific study of the material remains of past human life and activities. These include human artifacts from the very earliest stone tools to the man-made objects that are buried or thrown away in the present day: everything made by human beings—from simple tools to complex machines, from the earliest houses and temples and tombs to palaces ...
