The Economics Of Taxation Second

In this article we will discuss about the principles of taxation. The most important source of government revenue is tax. A tax is a compulsory payment made by individuals and companies to the government on the basis of certain well-established rules or criteria such as income earned, property owned, capital gains made or expenditure incurred (money spent) on domestic and imported articles.

Principles of Taxation | Economics

Why high GST collection is bad taxation and bad economics The hype over high GST collection hides the falling corporate tax and rising oil tax, both of which put higher burden on the poor, keep consumption demand low and drag growth down ... While the first is a direct burden on the poor, the second (agriculture) and third (transport sector ...

Why high GST collection is bad taxation and bad economics

Salience and Taxation: Theory and Evidence by Raj Chetty, Adam Looney and Kory Kroft. Published in volume 99, issue 4, pages 1145-77 of American Economic Review, September 2009, Abstract: Using two strategies, we show that consumers underreact to taxes that are not salient. First, using a field exp...

In economics, the Laffer curve is a theoretical representation of the relationship between government revenue raised by taxation and all possible rates of taxation. It is used to illustrate the concept of taxable income elasticity (that taxable income will change in response to changes in the rate of taxation).

Tax - Wikipedia

Economics (/ ɛ k ə ' n ɒ m i k s, i: k ə -/) is "the social science that studies the production, distribution, and consumption of goods and services.". Economics focuses on the behaviour and interactions of economic agents and how economies work. Within mainstream economics, microeconomics is a field which analyzes what's viewed as basic elements in the economy, including individual ...

CA Intermediate Syllabus & Subjects for May 2022 (PDF ...

Most economics problems have secondary effects - the deadweight loss from taxation is one such secondary effect. A government creates a tax to pay for some needed social program, but if the taxation is careless crafted, a secondary effect of that tax may be that it changes people's behavior, causing economic growth to slow.
