GBV interventions were analyzed in the literature review, eight interventions, which varied by sector and type of scale-up were chosen for further in-depth analysis during the site visits. The mixed-method research design was used to develop this analytical report in order to better understand scaled-up activities to address gender-based violence.

Scaling up Interventions to Prevent and Respond to GBV
Violence against women and girls is one of the most prevalent human rights violations in the world. It knows no social, economic or national boundaries. Worldwide, an estimated one in three women will experience physical or sexual abuse in her lifetime. Gender-based violence undermines the health, dignity, security and autonomy of its victims, yet it remains shrouded in a culture of silence.
