This process, which we call the targeting process, begins with the identification of a target: a person who is part of the adversary force or an object that is important to the adversary's...

Jennifer M. O'Connor, New York University School of Law ...

When normal peacetime relations between States break down and they resort to the use of force, it is the law of armed conflict that determines which acts of hostility are lawful. The idea that law should regulate what is done in war may seem strange, but it is nowadays well accepted. Accordingly, the law determines which targets may be attacked and which classes of person and object must be protected. Some persons and objects are specially protected, and it is vitally important that all ...

The Law of Weaponry and Targeting - ANU

As international humanitarian law regulates the means and methods that a belligerent may adopt to achieve its goals, there will inevitably be disagreements over the interpretation of that law. As for the rules that regulate targeting, the main difficulties arise over what is a lawful target and what is proportional collateral damage.
